

**EBG MedAustron GmbH** in Wiener Neustadt operates one of the most modern centers for particle therapy and research in Europe. Cancer patients are treated with an innovative form of radiation therapy with protons and carbon ions. In addition to cancer treatment the facility is also used for translational research.

Our Medical Device Safety team is responsible for the safety architecture of the Therapy Accelerator, the compliance to medical standards and patient safety critical systems.

**Become part of the Medical Device Safety team as**

## **Group Lead Medical Device Safety (f/m/x)** **full-time (40 hours weekly)**

**Challenges** you conquer:

- Responsible for leading the team, which involves:
  - Act as group leader of a team of system engineers/physicists, with special background in medical devices and basic safety aspects in accordance to the IEC 60601 medical standard family
  - Manage the budget of this group
- Ensure that the main responsibilities of the Medical Device Safety group are met:
  - Definition and continuous improvement of the safety architecture of the Therapy Accelerator, incl. the definition of requirements for the respective systems
  - Responsibility for selected safety systems
  - Interpretation of safety standards and knowledge on state-of-the-art safety technology
  - Development of safety systems according to (medical) standards

- Training of service personnel
- Commissioning and development according to the roadmap for MedAustron and for external projects: specification, development, production, installation and commissioning of all systems in scope of the group responsibility

**A background** that impresses:

- Technical university degree in Electrical Engineering or Physics (Master, PhD)
- Minimum of 5 years of occupational experience in product development, preferably in the development and/or maintenance of medical devices
- Ideally knowledge of safety standards and state-of-the-art safety technology
- Relevant experience in successfully managing a team and experience in operating at a strategic level
- Knowledge of relevant QM-systems (e.g. ISO 13485) and related processes
- Experience and knowledge in project management
- Fluent in verbal and written communication in English and German
- Able to lead a team effectively and efficiently, encourage collaboration and achieving defined targets
- A dynamic and enthusiastic person with excellent organizational skills and a focus on continuous improvement
- Proactive and strong in communication
- Fluent in verbal and written communication in English and German
- Willing to fulfill on-call support

**A unique offer** that inspires:

For the advertised position we offer a gross annual salary from € 65.000,-- (All-In contract, on a full-time basis) with the possibility of overpayment, depending on professional qualifications and experience.
