

**EBG MedAustron GmbH** in Wiener Neustadt operates one of the most modern centers for particle therapy and research in Europe. Cancer patients are treated with an innovative form of radiation therapy with protons and carbon ions. In addition to cancer treatment the facility is also used for translational research.

Our Medical Device Safety team is responsible for the safety architecture of the Therapy Accelerator, the compliance to medical standards and patient safety critical systems. Have a look at our [videoclips](#) to receive further information.

**Become part of the Medical Device Safety team as**

## Group Lead Medical Device Safety (f/m/x)

**Challenges** you conquer:

- Leading a team of highly trained international experts
- Representation of the team towards stakeholders and external partners
- Support the definition and implementation of development projects to constantly push forward the potential of our therapy accelerator
- Continuous development of the safety architecture
- Knowledge and understanding of safety standards and state-of-the-art safety technology
- Support of international projects directly and via the coordination of team members
- Support of other organizational units with your team's expertise including third level support in case of deviations
- Management of the group's resources (personnel and budget)

**A background** that impresses:

- Academic technical studies (preferable: PhD, DI or Master degree) in Physics, Engineering or similar
- Working experience in a similar technical field, preferably with medical devices and safety standards (such as ISO 13485, EN ISO 14971, IEC 60601-1)
- First experience in leading a team of experts, ideally in an international environment
- Experience with accelerator technology of advantage
- Project management skills are desirable
- Fluency in English and good command of German
- Openness for shift work and on-call duties

**A unique offer** that inspires:

For the advertised position we offer a gross annual salary of min. € 55.000,-- (on a full-time basis) with the possibility of overpayment, depending on professional qualifications and experience.
